

Mission

PowerCon delivers interactive educational and analytical content regarding the associated risks for the onshore energy, petrochemical, and power industries to a diverse audience of risk managers, insurance carriers, brokers, and third-party service providers who specialize in these areas of risk.

This one-day conference focuses on cutting edge issues the power industry faces. With an ever-changing world, PowerCon is an energizing educational opportunity for insurance professionals to gain the knowledge necessary to handle these dynamic and complex claims.
